

## Forex Symbol «Hungarian Forint vs Japanese Yen» or «HUFJPY»

HUF/JPY is not popular currency pair at the Forex market. HUFJPY is the cross rate against the U.S. dollar. Although the U.S. Dollar obviously is not present at this currency pair, it still has a significant influence on it. This can be seen, if you combine two charts: USDJPY USDHUF. By combining these two charts in the same price chart, you can get an approximate HUFJPY chart.

The U.S. dollar has a significant influence on both currencies. For this reason it is necessary to take into account the major U.S. economic indicators for the correct prediction of a future course of this financial instrument. These indicators include: the discount rate, GDP, unemployment, new created workplaces indicator and many others. Is necessary to note that discussed currencies could respond with different speed on changes in the U.S. economy, therefore, HUFJPY currency pair may be a specific indicator of change at these currencies.

This trading instrument is relatively illiquid if we'll compare it with major currency pairs, such as: EURUSD, USDCHF, GBPUSD and USDJPY. Therefore, when you make a prognosis for the financial instrument, you should primarily focus on those currency pairs that include a U.S. dollar in tandem with each of the considered currencies.

Currency pair HUFJPY is very susceptible to a variety of major political and economic developments taking place in the world. For this reason, the price chart for this currency pair is poorly predictable, and often goes in the opposite direction relative to any analysis.

It is not recommended for beginning traders to starting their trading activity at the currency market with a given currency pair. For successful trading with this financial instrument you need to know a lot of nuances of price chart behavior that can greatly affect the future course rate.

If you trade cross rates, it is necessary to remember that brokers are usually set a higher spread than the more popular currency pairs, so before you start working with the cross-rates, it should be carefully acquainted with the conditions offered by the broker to trade with specified trade instrument.
