

Forex Symbol «US Dollar vs Belarus Ruble» or «USDBYR»

USD/BYR (U.S. Dollar / Belarusian Ruble) a currency pair that is not used in trading at the Forex market. The presence of the trading symbol performs only informational function.

Today the Belarusian economy heavily dependent on energy supplies from Russia, for this reason, the Belarusian Ruble rate may vary depending on the level of supply from Russia and the price of its products. Belarusian economy is mainly agriculture and manufacturing industry based on Russian raw materials and re-exports from Russia. Among the most significant factors affecting the currency of Belarus is possible to allocate the international rating of the country, as well as the level of budget deficit.
