

Forex Symbol «US Dollar vs Ukrainian Hryvnia» or «USDUAH»

USD/UAH (U.S. Dollar / Ukrainian Hryvnia) is the currency pair that is not used in trading at the Forex market. The presence of the trading symbol performs only informational function.

To date, the Ukrainian economy heavily dependent on energy supplies from Russia, for this reason, the belarusian ruble rate may vary depending on the level of supply from Russia and the price of its products. Ukraine's economy is mainly agriculture and heavy industry. Among the most significant factors affecting the rate of national currency of Ukraine is possible to allocate the international rating of the country, as well as the level of budget deficit.
