

Order Freezing Level is a ban on changing, deleting or closing the positions that are close to fulfillment. Freezing order is an order blocking a certain customer, when he can not make any transactions to close positions, changes in levels of take profit or stop loss. In the case of a pending order, its removal is also prohibited. Freezing orders in the case of finding a the price close to the closing or opening of the order. In the case of an open position, the level will be close to the freezing level stop-loss or take profit. If this is a pending order, the freezing level will be considered the proximity of the current price to the opening level of the order. The specific distance (in points) of freezing orders, please visit our website or by contacting customer support.
